| Western Health Orthopaedic Department GP OSTEOPOROSIS REMINDER TOOL | PATIENT LABEL |
|---|---------------|

Dear Doctor,

Your patient was reviewed at the Western Health fracture clinic on _____.

They have been identified as being at risk or affected by Osteoporosis based on their diagnosis of a fracture from minimal trauma.

As per RACGP Guidelines we recommend you initiate Osteoporosis management and investigation.

Kind regards,

Western Health Orthopaedic Department

Further Information about this Osteoporosis Reminder Form

According to RACGP guidelines, all individuals over the age of 50 who sustain a fracture following minimal trauma (such as a fall from standing height or less) should be considered to have a presumptive diagnosis of osteoporosis. (Grade A Recommendation). RACGP guidelines for investigation and management of Osteoporosis are available via the RACGP website.
